Safe and sound hearing

## Custom made

### CENS Proflex

- Soft silicone mould
- Optimal wearing comfort through custom fit
- Suppresses harmful impact sounds
- Different colours available
- Optional battery modules with extended battery life
- 2 year warranty on modules

Variphone develops and manufactures custom made hearing protectors and communication devices for the most diverse requirements. Excessive exposure to impact noise, such as shooting activities, can lead to irreversible hearing loss.

Our extensive range for hunting and shooting sports goes from passive hearing protectors with impact filters to advanced active ear protectors with an electronic module.

## Communication

### Neck Loop

Connect your CENS active hearing protection, equipped with a telecoil (upgrade), wireless with portable radios or smartphones through the "SRC HARNASS". Complete 2 way communication with hearing protection has never been so simple.

A complete assortment of accessories and replacement batteries can be ordered on our website.
